HS RACK+

HS RACK+

Captive Portal

√ Simple configuration of the welcome environment for users

√ Various access systems: direct registration, tickets with personalized passwords, social networks (Facebook)

√ Ability to define access fields (name, nationality, room, email, etc.)

√ Access functionality via user email verification

√ Bandwidth and maximum connection time per session definition

√ Creation of whitelists

√ Possibility of connecting to a ticket printer for passwords

Network audit

√ Activity log of users connected to the WiFi network

√ Internal storage of the device's MAC address, visited domains, connection times to each of them...

√ Statistics on internet resource usage per user

√ Option to set up an external backup in the cloud (Dropbox, Google Drive, etc.)

√ In strict compliance with new legal interception and data protection regulations.

Social Network Access

Email verification process

TABELA TÉCNICA

REFERENCE		HS RACK+
Code		390021
Hardware		
Ethernet Interface	Mbps	Uplink 1 x 10 / 100 / 1000 RJ45 LAN 1 x 10 / 100 / 1000 RJ45
HDMI Interface		1 x HDMI 1080p
USB Interface		1 x USB 3.0
Serial Port Interface		Serial port
Storage		120 GB SSD
Power Supply	V/A	PP-264Vac 47-63Hz
General		
Operating Temperature	°C	-20 / 45
Power Consumption	W	Max. 12
Software		
Programming		Interfaz Web
User Access Assignment		- Tickets - Usuario y contraseña - Registro directo - Redes sociales
Bandwidth Limitation		Sí
User Type Creation		Perfiles de clientes
DHCP Server		Sí
System Capacity	n°	2000 usuarios
Activity Log		**Complete audit with user-specific log of:** - Device MAC address - Username - Assigned IP - Visited domains - Start and end time of each visited domain
Statistics		Activity log / Network usage per user
Backup		Internal storage of activity logs. Option to set up secure cloud storage.
Dimensions		Rack 19" x 1U x 222mm
