

OFFSET ANTENNA

OD 160-5

- ✓ Antenna specially manufactured for installations requiring extremely high protection against adverse environmental conditions (rain, snow, wind, salty environments, etc.).
- ✓ High-quality aluminum dish. Due to its metal composition, it is completely resistant to corrosion. Additionally, the dish is oven-baked with polyester paint.
- ✓ Hot-dip galvanized mount and mounting accessories. This treatment according to UNE EN ISO 1461 standards guarantees high durability and high protection for outdoor installations and in humid or corrosive environments.
- ✓ Cold galvanized screws to ensure perfect corrosion protection for smaller-sized elements.

OD 160-5

TECHNICAL INFORMATION

REFERENCE		OD 160-5
Code		021023
Type		OFFSET
Dimensions	mm	1550 x 1396
Material		Aluminum
Frequencies	GHz	10,7 - 12,75
Gain	dB	42,2 - 43,9
Mounting Type		AZ/EL
Support Dimensions	mm	60
Elevation	(°)	20
Azimuth	(°)	+/-85
Wind Load	km/h	Operacional 90 - Supervivencia 190
Reflector Weight	kg	8,60
Total Weight	kg	19,00
